Dividends paid out to stockholders in FY 2020

Revenue Q1 2021

⁽¹⁾ Includes CCE subscription business, Coinflation.com, Collectors.com, Expos trade show and product sales.

“ We achieved another quarter of record performance with revenue increasing over 50% both sequentially and year-over-year to \$30.8 million, primarily driven by significant growth in our PSA division for trading cards, autographs and sports memorabilia. Additionally, we set new quarterly records on both earnings and cash generation, further highlighting the improving operating leverage in our business. These results are a direct reflection of the diligent work by our team over the past few years to transform the business in a way that could enable the kind of growth we achieved in the first quarter of fiscal 2021.”

Joseph J. Orlando
